

THE MOST UNIQUE SWIMMING POOL PURIFICATION SYSTEM...

Enjoy a hassle free sparkling crystal clear pool all year round even when it rains.

Dramatically reduce your chemical costs by an amazing 90% and over.

Enjoy the benefits of sparkling clear water even when it rains.

The only system on the market that **reduces your pump run time to only +-3-6hrs** a day Save up to **70% on electricity** that your pump normally uses.

The only system on the market which is **PH and Alkalinity balanced** which unlike any other system means that you **never have to** check your PH once installed.

Your children will love it! No more allergies, sore red eyes, dry skin and hair. Your eyes will never burn like they do using any other system.

The Ozonate® system is the only pool sanitation system which is **ECO friendly, does not produce any harmful chemicals** and is safe for the environment.

The system is **ALSO** MUCH more **affordable**, beneficial, eco friendly and completely **non corrosive** on the pools structure and piping.

THE MOST AMAZING POOL...

The Ozonate® system **will keep your pool water sparkling clear** every day of the year, insuring your pool water to be **free from algae** even when it rains.

This natural process will also **take the hardness out of your water**. You will be swimming in **soft oxygenated mineral water** that has great benefits.

You will **feel, see and be amazed by the difference of the water.**

SATISFACTION GUARANTEED...

We have many happy clients who have benefited greatly by having a system installed these include private clients, pool contractors such as swim schools, and health centers who have seen marvelous and proven results.

TWO YEAR REPLACEMENT GUARANTEE

The only pool system in South Africa with a 2 year guarantee on all units and any unit which is faulty will be replaced. We **do not** repair any faulty unit we only replace it with a new one.

SO SIMPLE TO MAINTAIN

The only pool system in South Africa which is completely automatic and easy to maintain. No need to ever check acid PH levels or alkalinity once the system is installed and balanced the first time after installation.

TECHNOLOGICALLY ADVANCED...

The **Ozonate®** system is **electronically advanced** and extremely lightweight - so light, it weighs less than a kilogram. 850grams to be exact and is so advanced It is the only pool system that uses only 15watts/hour of power which is a fraction compared to any other pool purification system in South Africa.

The system is **completely automatic** and will automatically switch on and turn off with your pool timer settings as well as automatically detect and increase current when needed to keep pools PH balanced.

Unlike salt chlorinators The Ozonate® system **does not produce any harmful chemicals** WHATSOEVER. It is completely eco friendly and even manufactured using recycled plastic.

It **does not convert salt into chlorine** nor use any other chemicals but **uses a completely natural patented process** that sends different frequencies of electrons into your pool water.

This process is completely natural. The water that passes through the SYSTEM is charged by a high frequency. The positively charged (+O₂) Oxygen particles attach themselves to the negatively charged (-O₂) molecules in the water.

This natural process creates about **600 grams of OXYGEN** which is greater than any other system can produce.

INTERNATIONALLY CERTIFIED AND ROHS ENERGY APPROVED

The system has the highest international quality and safety standards and is **CE approved** according to the strictest European Standards.

It is also **ROHS** compliant which is the highest **certified approval** for an electronic system meaning that it is highly energy efficient. The unit not only uses low wattage **15watts/ hour** to be exact but it can save **UP TO 70%** on your pump running time which is normally required with any other system.

COMPLETELY NATURAL PROCESS...

It is this natural process **that will keep your pool water sparkling clear all year round** absolutely guaranteed.

Your pool water will be soft and sparkling clear month after month and year after year.

Unlike any **salt chlorinator**, **Ozonate®** is the **only system** on the market which is **PH balanced**.

Every system installed comes with a 2 year guarantee and is the only pool system on the market to offer this.
